

Dr. Lara Varisco Leonhardt, MD

Due to popular demand, *Bee Well Pediatrics* is excited to offer E-Visits!

What are E-Visits?

E-Visits are “virtual visits” for non-urgent matters that the physician determines can be treated via email. The visits are perfect for busy days when you don’t want to load the kid(s) up for a simple question or concern. Examples of this would be newborn care, child behavior or development, constipation or simple colds to name a few.

How does this work?

The visit is initiated by you through our secure patient portal where confidentiality of sensitive medical information can be assured. *If you have questions how to access the portal please call the office.* You will receive a response within 24 hours. In some cases, the physician may determine your question or matter cannot be addressed via email, in this case you will be notified by a staff member to make an appointment to come in and see the doctor. **Please note: Because you will receive a response within 24 hours, this type of visit is not appropriate for urgent matters. As always if you have a medical emergency call 911.**

How much does this cost?

The cost for an E-visit is \$25.00. This fee will not be submitted to insurance.

Other things you need to know:

- Any correspondence will be added to the patient’s medical record.
- E-visits are only available to established patients who have a consent form on file.

I agree to the E-Visit terms, privacy policy and charge for such a visit. I understand that my E-Visit occurs over a HIPAA compliant online connection. I understand that any correspondence will be added to the medical record.
